PERMANENT ADDRESS

1031 Jonathan Lane
Tucker, Georgia 30084
United States

OBJECTIVE

Seeking to better the University of Georgia campus by giving back through servant leadership. I've learned throughout my lifetime that the best way to flourish as a person, is by giving yourself to the community around you. That's what I hope to teach my peers by the time I leave this University.

EDUCATION

The University of Georgia, Athens, GA

Bachelor of Science in Computer Science, May 2019

- Major: Computer Science
- Zell Miller Scholarship Recipient
- Current GPA: 3.86/4.00

- Build a community within the Student Government family to ensure that the inspiration to give continues on.
- Participate in planning and executing of service events throughout the Fall and Spring semesters.

Wesley Church, Athens, GA

Member, August 2015 – Present

College Life, Athens, GA

Member, September 2015 – Present

Gwinnett Online Campus

GOC Student Government, Lawrenceville, GA

President, August 2013 - May 2015

Description: Gwinnett Online Campus Student Leadership is quite honestly the only thing that holds this small charter school together. Because of the optional attendance for classes due to the online class aspect, many of the students who chose to be involved in this program ended up succeeding spectacularly at this school. Whether it was through the planning of monthly events, or the creation of new mentoring programs, there was always something to be done. As with most student governments, there was a hierarchical system designed to spread out the load of work evenly amongst members so-as to be as efficient as possible.

Gwinnett Student Leadership Team, Lawrenceville, GA

Representative, June 2013 - July 2015

Description: GSLT is an elite program for select students in the Gwinnett county area, designed by Ms. Nancy Ward to instill a sense of leadership in the community. They meet monthly to hear from prominent speakers from around the country, who cover select topics from a rigorous curriculum. The program occurs from Junior year, through the end of Senior year, when the students graduate from high school.

Technology Ambassadors, Lawrenceville, GA

Founder, September 2013 - May 2015

Description: The technology ambassadors at GOC were founded to provide a liaison program between the Elementary school, Middle school, and High school programs within the school by allowing high school students to mentor and teach younger students during their weekly classes.
